

Basic Product Information

Item	Details
Product Series	PET Holographic Film
Model No.	UHF01
Lifespan	1Year

Product Structure

Category	Item	Unit	Data
Surface Material	Material		PET
	Thickness	mm	0.05
	Basic Weight	g/m ²	50
	Color		Plain Holographic Vinyl
	Smoothness		GOOD
	Tension Strength	g/15mm	GOOD
	Print Ability		GOOD
Adhesive	Adhesive Base		ACRYLIC (SILVER ADHESIVE)
	Thickness	mm	0.028-0.03
	Bry Coating Weight	g/m ²	108-110
	Initial Tack	NO/BALL	≥3
	180° Peel Adhesive	kg/25mm	≥0.8
	Release Force	g/25mm	5~15
	Holding Power	hr/kg*20mm2	8 ↑
	Weather Resistance		GOOD
	Temperature Range		-5~80°C
	Solvent Resistance		GOOD
Liner	Material		140gsm white kraft release paper
	Thickness	mm	140
	Basic Weight	g/m ²	140
	Color		WHITE
	Smoothnes		GOOD
	Tension Strength	g/15mm	/
	Die Cutting		GOOD

REMARK:

All aforementioned technical data are average values obtained from repeated tests conducted by our Company using universally accepted and reliable inspection methods. To ensure proper selection and application of our products, please thoroughly verify your intended usage purposes and operating conditions via pre-trials matching your actual application scenarios. Alternatively, you may contact our Company for further technical consultation and support services.
